puttermanathletics

Our Mission

The Putterman Athletics legacy began and remains rooted in an American Dream— building and sustaining a U.S. manufacturing business. Putterman’s doors opened in 1920 by founder Max Putterman, and have remained open due to a fierce commitment to exceptional service and quality craftsmanship. Setting the stage with high quality products for recreational and competitive play has been the mission for decades. Putterman’s latest catalog looks to recognize and celebrate those players and athletes we ultimately serve. For more information on our company, terms, conditions and warranties, visit puttermanathletics.com/about-us/.

Tenn-Air™

Putterman's easy to install, highly durable Tenn-Air™ windscreens offerings are an excellent choice for tennis, pickleball, sports fields, or commercial properties that require a top-quality look.

The durable Vinyl Coated Polyester (VCP) material of our Tenn-Air™ windscreens resist weather elements and standard abrasion from player activity.

Windscreens feature multi-ply reinforced hems with brass grommets every 12 inches. ENDURA™ large format custom printing and custom sizes available.

Tenn-Air™ Pro

Twinscreen gives your tennis court a sleek, professional look. The combination of open mesh and solid vinyl will make your custom logo the focal point of your playing background, while also obtaining more privacy and high wind blockage.

Twinscreen Pro has a center section of heavy-duty vinyl with 100% opacity for added privacy and ball perception. The bottom and top sections of our screens are constructed with our Tenn-Air Pro material.

Both Twinscreen and Twinscreen Pro feature 3-ply reinforced hems with brass grommets every 12 inches.

Dura-Air™ Plus

Dura-Air™ Plus: Next-Generation Performance Meets Modern Redesign

The new Dura-Air Plus sets a higher standard for windscreen durability and visual appeal. Engineered with advanced materials and manufacturing techniques, this upgraded version is built to last — delivering 20% more abrasion resistance and an impressive 105% increase in tear resistance compared to our previous offering.

Beyond strength, Dura-Air Plus introduces a refined, more uniform mesh pattern that enhances both airflow and aesthetics. The result is a cleaner, more consistent appearance that elevates the overall look of any installation.

Available now in our full range of classic colors plus a bold new Graphite Gray, Dura-Air Plus combines rugged performance with modern style — the perfect balance of protection, longevity, and design sophistication.

Facility Spotlight

Neil Schiff Tennis Center, University of Miami

The award winning Neil Schiff Tennis Center, home of the University of Miami men's and women's tennis teams, was built to support college, amateur and professional tennis competitions. The courts have also served as the home for many of the nation's top amateur tennis events including the NSTC International Junior Orange Bowl tournament and the NCAA Division-I Women's Tennis Championships Regional.

The Center houses 16 world-class tennis courts including eight designated varsity courts. These courts are flanked on two sides by premium seating for more than 1,000 spectators, including 144 court-side chair backs for optimum viewing. The varsity courts are designed for open spectator access, with spacious walkways that allow a clear view to every court in use during matches.

Putterman's Role

At the University's request, each of the windscreen panels were meticulously hand-painted by our skilled production team. The vibrant orange and white colors seen on the logos and mascot were precisely matched according to the University of Miami brand standards. Each of the sleek, black Tenn-Air™ Pro Closed windscreens provide a nearly solid backdrop for enhanced visibility, quick ball pick-up, and individual isolation of each court from its neighbor.

Over the past decade, Putterman Athletics has been providing the University of Miami with custom printed windscreens for this facility.

EverScreen™ XT

NEW FOR
2026

Introducing EverScreen™ XT, a breakthrough in windscreen technology. Built with a proprietary 5-stitch design, EverScreen XT delivers the strongest tear strength in its class, setting a new benchmark for durability and performance.

At its core is our innovative toroidal polyhedron multi-dimensional profile, creating a thicker, more resilient screen that enhances player privacy while dramatically reducing tie-wrap breakage and ongoing maintenance—far outperforming standard polyethylene materials.

Engineered for elite facilities and demanding environments, EverScreen XT offers unmatched strength, aesthetics, and longevity.

Available in a variety of colors and custom imprinting options, EverScreen XT delivers the ultimate combination of performance, privacy, and endurance.

EverScreen™ XT

EVERXT-CSTM

- 13oz 100% virgin polyethylene
- 75-80% visibility blockage
- Dramatically reduces wind load compared to competitive screens
- Three-grommet reinforced corners fortify the screen's most vulnerable areas
- Knitted polyethylene provides superior flexibility, strength, and long-term durability
- Best-in-class player privacy with a thicker, more opaque profile
- UV-blocked and fade-resistant for lasting color vibrancy
- 3-ply reinforced hems with grommets every 12" for maximum strength
- Unmatched 8 year warranty

Black Forest Green

Navy Royal Blue

Polypropylene Screens

With a higher tear strength than similar closed mesh polypropylene materials, Lathe Leno is a stylish and economical application for both commercial and athletic facilities. Its unique leno weave, offers you the required shading for privacy, while doing away with the extra cost of sewn vents.

These screens feature 4-ply reinforced hems with brass grommets every 12 inches. Custom sewn-on graphic panels are available.

Lathe Leno

LAL-6-CSTM | LAL-9-CSTM

- 5oz polypropylene
- 6' and 9' standard height
- 87% visibility blockage
- 4-ply reinforced hems
- 4 year limited warranty

Black Green

ProGard 95

PROG-6-CSTM, PROG-8-CSTM

- 6oz 100% closed polypropylene
- 5'-10" standard height (green & black)
- 7'-10" standard height (black only)
- 95% visibility blockage
- 4-ply poly webbing hems
- 2 year limited warranty

Black Green

Please Note: If the screens are planned for high wind areas, reinforced sewn vents are suggested.

Photo Finish Fence Murals

Transform your plain fence with our designer fence murals.

PhotoFinish Fence Murals are an economical solution offering privacy, personality, and the ability to change the look of any fence.

Windscreen features 3-ply reinforced hems with brass grommets every 12 inches.

Our exclusive ENDURA™ digital printing technology delivers vibrant, full-color, realistic designs.

Blue Mountains

Garden Hedge

Wooden Fence

Features & Benefits:

- Durable, all-weather, PVC coated polyester fabric
- Privacy protection
- Easy to install
- Lightweight & durable
- Available in 25' wide panels
- 75% visibility blockage
- Fully customizable with your logo

Polyethylene Screens

Used in both industrial and athletic applications, polyethylene provides a durable alternative for workplace, facility, and home. Perfect for wind protection, security and privacy, this flexible yet tough material yields maximum tensile strength and visual blockage around the job site.

Windscreens feature brass grommets every 12 inches.

Commercial Knit

Light Weight Tie-wraps

TIES50

- 50 lbs breaking strength
- Self-locking head
- 8" long only
- 100 per bag

Lacing Rope

3/16" DIA: ROPE316BLK600 | ROPE316BLK1000

5/16" DIA: ROPE516BLK600

- 3/16" hollow-braided or 5/16" twisted black poly rope
- 600+ lbs breaking strength
- 600' & 1000' reels

Plastic "C" Clips

PROCS01

- 100 per bag

Lacing Twine

1/8" DIA: LACINGTWINE

1/4" DIA: PRO60014

- 1/8" Diamond-braided MFP, black lacing twine
- 250+ lbs breaking strength
- 500' & 600' reels

Metal Snaps

SNAPS

- Zinc plated
- 6mm diameter

WINDSCREEN FEATURES:

- Imprinting available on all windscreen products
- Sports Windscreens are available in standard 6' and 9' heights and in custom heights by quotation
- Any screen width is available; however, 60' is the maximum recommended width per panel
- Standard reinforced hemmed edges with heavy-duty 13oz vinyl coated nylon sewn to 1-1/2" wide
- Brass 3 grommet corners standard (Fig. 1)
- #2 brass grommets spaced every 12" on all four sides
- All 9' screens include a center seam with grommets (Fig. 2)

Fig. 1: typical corner

Fig. 2: 9' center seam

NoiseGard™ Sound Reduction Systems

Communities have raised the concerns of noise pollution for homeowners within 500' of a court. The sound levels created have a high-pitch level and have been recorded up to 80 decibels (dB). This tends to be 20-30 dB above acceptable levels for court sports.

We currently offer multiple product variations that deliver between a 13-33 dB reduction on pass through sound. The Sound Transmission Class (STC) ratings, in conjunction with a systems Noise Reduction Coefficient (NRC), are used to better understand the potential reduction in sound through a barrier and the amount muffled before it reflects back towards the court it is surrounding.

NoiseGard™ Quilted Panel System

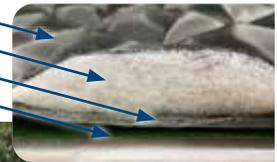

NGMLV-QPS3: 3MM MLV MID-LAYER INSIDE

Unwanted soundwaves enter our 4-layer NoiseGard QPS composite system through the weather resistant, quilted fabric covering and are absorbed into a layer of sound-absorbing filament batting. Behind that, we add a sound blocking 1 lb/sf mass loaded vinyl (MLV) and back each panel of the QPS system with a durable vinyl cover. Black and green standard. Other colors and custom dimensions available.

- Dimensions: 3' x 9'
- Thickness: 27 mm
- Weight: 42 lbs
- STC Rating: 30 dB

Weather resistant fabric cover
Filament batting
Mass loaded vinyl
Vinyl backing

NoiseGard™ Mass Loaded Vinyl

NGMLV-1.0: STC =28 | NGMLV-1.5: STC =33

Unmatched durability, outstanding performance, and a clean look make the NoiseGard MLV system a great choice for court owners, parks, and clubs. With decible reduction from 28 to 33 dB, these polyester mesh reinforced curtains can eliminate unwanted noise issues for neighbors while providing the best playing conditions on the court. Available in black and gray. They are fire rated and designed for temps between -20° to 170°F.

- Dimensions: up to 54" wide
- Thickness: 110 or 160 mils
- Weight: 1 or 1.5 lbs/sf
- STC Rating: 28 or 33 dB

NoiseGard™ Dense Vinyl Blocker

NGDVB-40: STC =13

These easy-to-install panels can provide up to 13 dB of pass-through sound reduction (STC). The NoiseGard DVB systems are thin, light weight, flame resistant, and formulated with anti-mildew, anti-fungal, and anti-microbial agents. The proprietary dense vinyl material contains an inner reinforcing mesh for dimensional stability in any climate. Available in various colors including clear.

- Dimensions: up to 20' wide
- Thickness: 0.8 mm
- Weight: 40 oz/sy
- STC Rating: 13 dB

NoiseGard™ "S" Hook

SHOOKBLK

- 6" L coated steel
- For hanging QPS and MLV NoiseGard Systems

Fence Rail Covers

FenceGard Premium

FGPREM-80

- Standard measures 3"W x 4-1/2"H x 0.10" wall thickness
- Professional teardrop shaped profile
- Easy to install with just one person
- Exterior grade UV-resistant polyethylene construction
- Pre-drilled every 24" for attaching to the fence
- Sold in cartons of 84': (12) 7' sections
- Fence cap ties included
- 5 year limited warranty

FenceGard Standard

FGSTD-80

- Standard measures 2-3/4"W x 4"H x 0.07" wall thickness
- Professional teardrop shaped profile
- Easy to install with just one person
- Exterior grade UV-resistant polyethylene construction
- Pre-drilled every 24" for attaching to the fence
- Sold in cartons of 84': (12) 7' sections
- Fence cap ties included
- 3 year limited warranty

FenceGard Lite

FGLITE-80

- Standard measures 2-5/8"W x 4"H x 0.05" wall thickness
- Professional teardrop shaped profile
- Easy to install with just one person
- Exterior grade UV-resistant polyethylene construction
- Pre-drilled every 24" for attaching to the fence
- Sold in cartons of 84': (12) 7' sections
- Fence cap ties included
- 1 year limited warranty

PolyCap

FNCCAP250-V | FNCCAP250-BLKV

FNCCAP100-V | FNCCAP100-BLKV

- Rounded corner profile for added strength
- Pre-slit
- 4-1/2" heavy-duty construction
- Weather, mildew and UV treated
- 100% virgin high density polyethylene
- Recyclable when done using
- 3 year limited warranty

Zipper Installer Tool

FNCAPTOOLV

- Solid steel
- Makes install of your fence cap easy

Rail Padding Systems

Our two-component SafeGard™ system is the ultimate in top rail padding. The padding system combines a dense, 2 lbs/cf tubular foam inner cushion wrapped with a weatherproof outer cover. Designed for ease of installation and unmatched aesthetics, SafeGard comes in standard 6' lengths. For larger jobs, can be produced in customized lengths to meet your fence specifications.

In addition to an extensive array of colors, SafeGard can be customized with your company logo, school name, promotional event, sponsor, and more. We can print anything your mind can dream up!

SafeGard can be used indoors or outside, guarding players from impacting fence frames and gate impacts. The 2" ID tubular foam material is pre-slit for ease of application, and the covers are attached on the underside of the foam with grommets and standard tie-wraps.

There is no better way to finish off your facility fencing than with our sleek and customizable fence protection.

SafeGard™ Rail Padding System

RAILPADCOVER-CSTM | SG-FOAMTUBE6

- Perfect for professionals and DIY use
- Double stitch hemming and black grommets
- High impact tubular foam inner core
- 18oz, fire-rated and environmentally stable vinyl outer jacket
- Tie-wraps not included
- Sold in cases of 10 pieces/box. Each piece is 72." long
- Available in Red, Yellow, Orange, Bright Pink, Lime Green, Green, Burgundy, Marine Blue, Royal Blue, Navy, Tan, Brown, Purple, White, Grey, and Black

FoamGard™ Top Rail Padding

FG-FOAMTUBE8

Protect your players and fans alike from unwanted abrasions and injuries. Our polyethylene foam padding has a co-extruded tough, non-foamed, outer skin that stands up to the most demanding applications for years of protection. Ideal for chain link fence protection, playground wrapping, and athletic sport complexes. Sold in cases of 20 pieces/box. Each piece is 96" long.

- 3-1/2" nominal OD x 2" nominal ID
- Lightweight and recyclable
- Weatherproof and UV resistant
- Pre-slit for fast installation
- Wear-resistant outer layer
- Apply Tie-wraps as needed for security
- Black only

Pickleball Systems

Pickleball is one of the fastest growing sports in the United States. And, it's no coincidence that it is also one of Putterman Athletics' fastest growing product lines! No matter what your budget or need, Putterman has a pickleball solution for you. From professional systems for your facility to portable options for smaller venues and homes, we have you covered. Nets and posts? We have those as well!

**REDESIGNED
FOR 2026**

PRO-Pickle Portable Net System PROPBS-3

This portable, heavy-duty professional level net and post system includes:

- Regulation net: 22' W x 34" H at center (36" at sideline)
- Powder-coated steel frame with posts
- Net and center strap included
- Heavy-duty casters

Replacement Net - PRO1223-PBS

Flip Down Portable Net System

PROFDS-1

This system is great for semi-permanent installations:

- Regulation net: 22' W x 34" H at center (36" at sideline)
- Powder-coated steel frame with 3" square posts
- Net included
- 360° flipdown casters

Replacement Net - PR01223

Pro Pickleball Alloy

PROPBS-ALLOY

- Aluminum, rust-free construction
- Stainless steel hardware
- Easily adjustable net tensioning system
- Medium weight net included

Replacement Net - PROALLOYNET

- Black or green background with white imprint or white background with black or green imprint

Court Stencils

- Turn your custom art or lettering into an on-court graphic
- Cut out and tracing pattern options available
- One piece and multi-piece versions offered

Hard Courts

Miracle Dri Premium

PROMD05
REFILL: PROMDBLK

- 36"Lx4"D black nitrile rubber roller with end caps
- Nitrile rubber is soft from the start and very effective at pushing water off your court
- Significantly more durable than most polyvinyl alcohol rollers and not subject to color fade
- Refill rollers available

Miracle Dri Standard

PROMD03
REFILL: PROMDBLU

- 36"L x 4"D blue polyvinyl alcohol roller with end caps
- Utilizes the unique absorption properties of polyvinyl alcohol (PVA) to create a seal with the court
- Water can be pushed off court surfaces quickly and with no streaking.
- Refill rollers available

Miracle Dri Fence Cover

PRORC02

- Extends the life of the roller
- Powder-coated fence mounted protector
- Available Colors: Black

Putterman Rain Shuttle

- Rubber wheels with positive locking brush action
- Coarse or fine bristles available

Combination Leveling Mat

MSTCLMAT

- Lightweight grooming mat
- Features 2 rows of poly tiles for leveling divots
- Mesh mat trails the tile to smooth the surface

Quick Scrub Tennis Shoe Cleaner

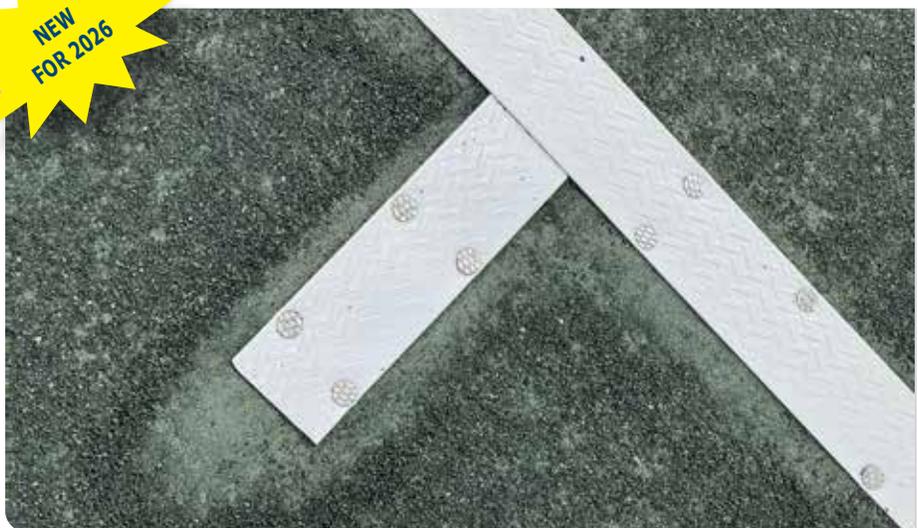

PRO41271

- Bottom and side brushes for extra cleaning
- Indoor and outdoor use

Herringbone Clay Court Line Tapes

MSTHBP | MSTHBU | MSTHBP-PC

- Engineered for marking red or green clay courts
- 100% virgin PVC coating combined with a synthetic web inner-core reinforcement
- Available in punched and unpunched 495 LF rolls or pre-cut lengths
- One box of line tapes is enough to complete one standard doubles tennis court
- Nails sold separately.

Curtains

Our custom fabricated backdrops offer fabric options from 13 to 22oz. All our curtains are fire retardant and feature industry leading craftsmanship. The fit and finish creates unmatched ball containment and gives players a sense of place when enjoying their game.

Putterman is the only manufacturer that offers free design and engineering services under one roof. We can even arrange for installation.

ENDURA™ large format custom printing and custom sizes available.

All three Tenna™ options feature welded vertical seams for durability and reinforced web hemlines with brass grommets every 12". We even install the hanging snaps in each of the upper grommets. Hinged doorways, standard or split wings, integrated mesh or netting windows, court numbers, and signage is available.

Rainbuster™ Spot Covers

IMPRINTING AVAILABLE

Poly Spot Covers

- AFCRBSC6V: 6oz - WHITE/SILVER
- AFCRBSC6.8V: 6.8oz - WHITE/BLACK
- AFCRBSC7.5V: 7.5oz - WHITE/ROYAL BLUE

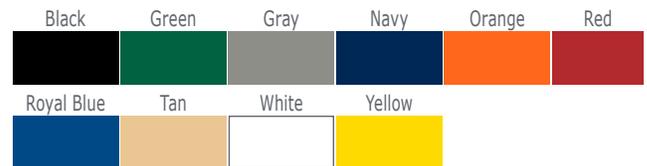

Our poly tarps are composed of a light weight, waterproof and mildew resistant woven polyethylene material that has a reinforced perimeter and #4 brass grommets spaced every 36".

Vinyl Spot Covers - 18oz

AFCRBSC18-10

18oz vinyl tarps are the workhorse of spot covers. The vinyl option allows for multiple colors as opposed to the standard white/silver of the 6oz poly. Like the poly tarps, vinyl tarps have a reinforced perimeter with #4 brass grommets spaced every 36".

Rainbuster™ Infield Covers

Full Infield Cover

- AFCRB6V-CSTM: 6oz POLY WHITE/SILVER
- AFCRB6.8V-CSTM: 6.8oz WHITE/BLACK
- AFCRB7.5V-CSTM: 7.5oz WHITE/ROYAL BLUE

Utilizing a full infield cover is a key component in making sure your field is playable after a weather delay. All poly covers include a reinforced web perimeter, webbing pull handles and #4 grommets every 10'. The cover itself is made from a 6.0oz, 12-mil fabric-woven coated polyethylene. Standard and custom sizes available.

Reinforced perimeter edging with pull handles & grommets

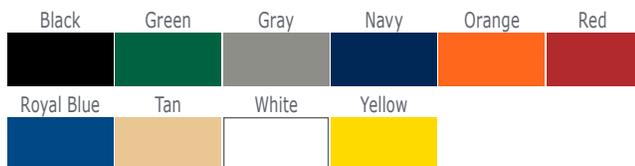

Fitted Storage Roller Covers

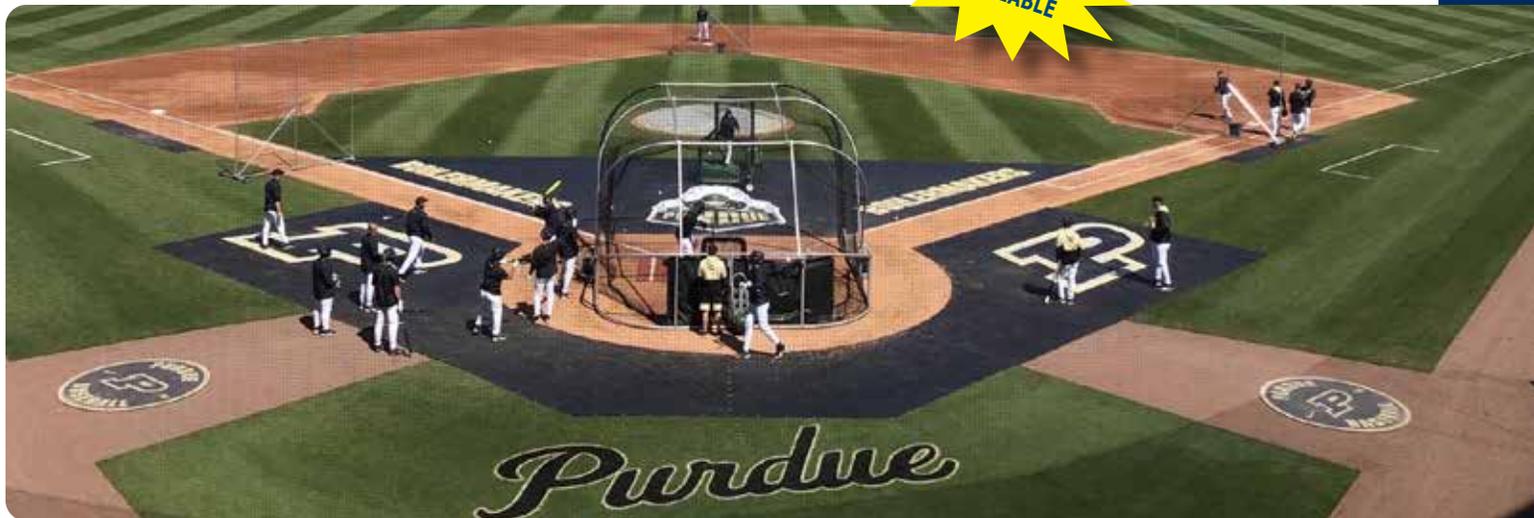

Fitted Storage Roller Cover

AFCRBRC-CSTM

Made from durable 18oz vinyl, our fitted storage roller covers come in multiple colors and are fully printable with your logo or sponsorship graphics.

Infield & Cage Products

Grass-Shield™ Infield & Batting Cage Premium Turf Guardian

INFIELD WEDGE: GSIPTG-CSTM
CAGE COLLAR: AFCBCCPREM-CSTM

Made from a heavy duty, yet light weight, 10oz mesh, the Grass-Shield offers superior protection to your infield and batting cage area around home plate. The perimeter is finished with a 3-ply reinforced hem and #4 brass grommets spaced every 12”.

VCP Mesh Infield Protector

INFIELD WEDGE: GSIVCPTG-CSTM
CAGE COLLAR: AFCBCCVCP-CSTM

Made from light weight, 8oz mesh, this protector offers great protection to your infield and batting cage area around home plate for a budget-conscious program. The perimeter is finished with a 3-ply reinforced hem and #4 brass grommets spaced every 12”.

Portable Batting Cage & Field Screen Padding & Netting

BATTING CAGE PAD: BCPADS-CSTM
FIELD SCREEN PAD: FSPADS-CSTM
BATTING CAGE NET: BCNETS-CSTM
FIELD SCREEN NET: FSNETS-CSTM
BACKSTOP VINYL: BCSVIN-CSTM
BACKSTOP MESH: BCSMSH-CSTM

While batting cage “turtle” sizes and shapes vary by manufacturer, Putterman produces frame padding, backstop skirts & padding, and netting to fit any system on the market today. The padding and skirts are made using 18oz vinyl that comes in a variety of colors. We offer netting options in a variety of sizes and thicknesses to fit any budget.

Football Sideline Turf Protectors

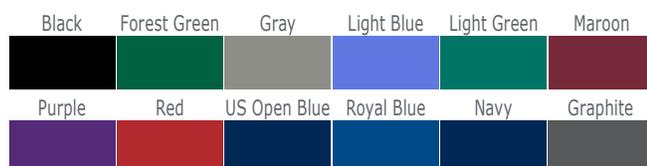

Grass-Shield™ Football Sideline Guardian

AFCGSSG-CSTM

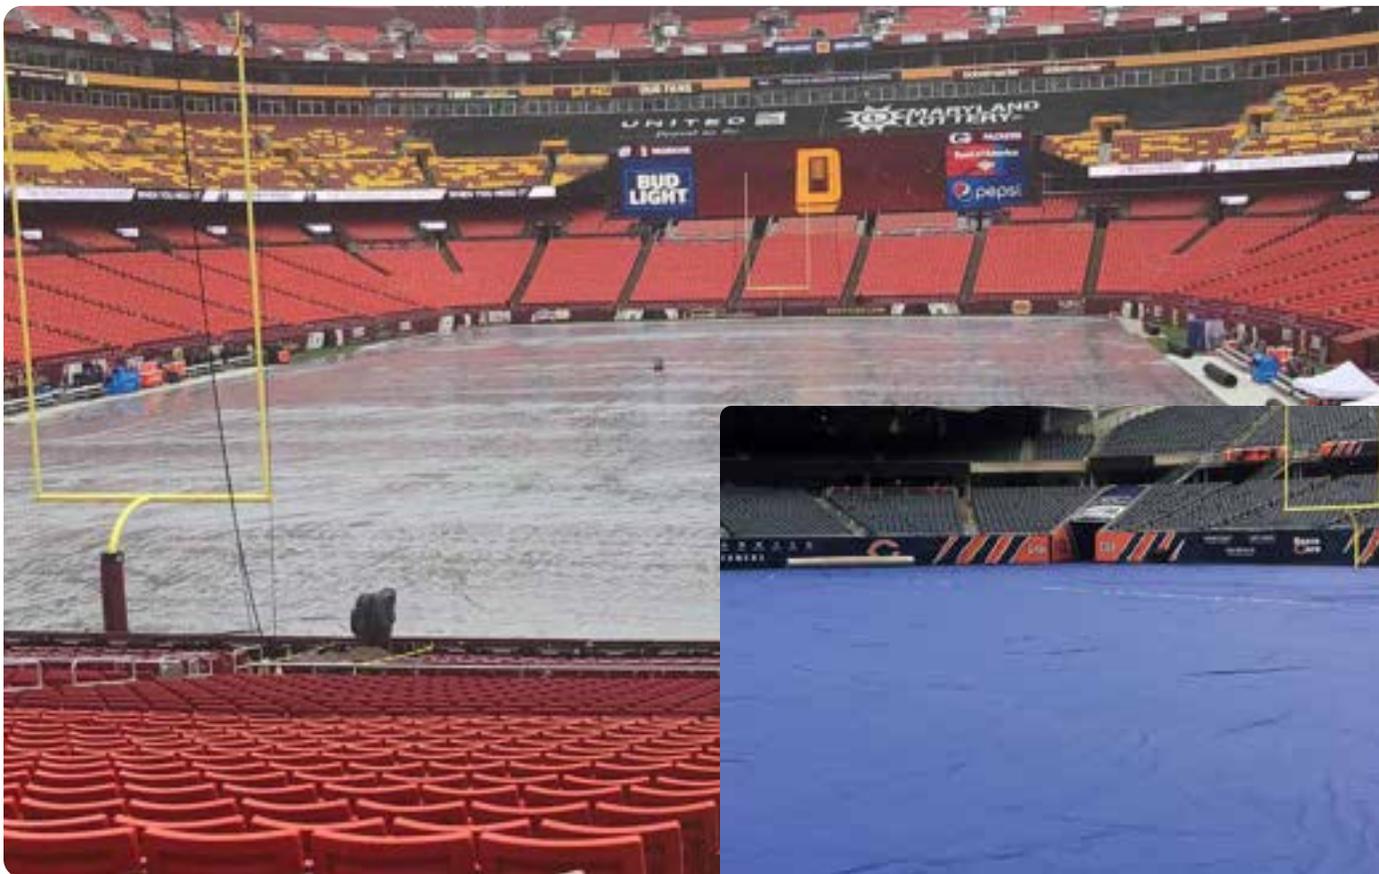

Constructed from a heavy-duty, yet light weight, 10oz mesh, the Grass-Shield offers superior protection for your sidelines, reducing wear caused by constant foot traffic and equipment use. Putterman offers an option to add painted coaches lines or a distinct 2nd or 3rd material color, helping players to easily distinguish between the coaches box and the team area. The perimeter is finished with a 3-ply reinforced hem and #4 brass grommets spaced every 12”.

- Imprinting available

Football Field Covers

Weather can wreak havoc on your stadium fields. So whether you reference “football” to mean American football or soccer, we can outfit a custom field cover to meet your specific size and needs. Our covers have UV and mildew inhibitors built into the raw material and the seams are heat-welded for increased strength and durability. In order to make these covers more manageable in the field, football field covers are broken down into manageable panel sizes with Velcro connection. The outer perimeter of the cover has grommets and handles every 10’.

Poly Field Covers

- AFCRB6V: 6oz - WHITE/SILVER
- AFCRB6.8V: 6.8oz - WHITE/BLACK
- AFCRB7.5V: 7.5oz - WHITE/ROYAL BLUE

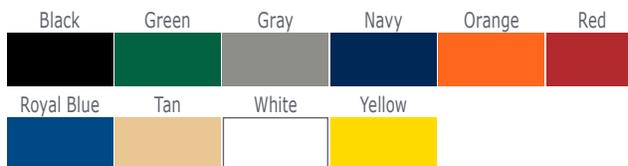

- Light weight, waterproof and mildew resistant
- Reinforced perimeter with #4 brass grommets; every 36”
- 1 year limited warranty

Vinyl Field Covers

- AFC14-CSTM: 14oz
- AFC18-CSTM: 18oz

- Waterproof and mildew resistant
- Reinforced perimeter with #4 brass grommets; every 36”
- 1 year limited warranty

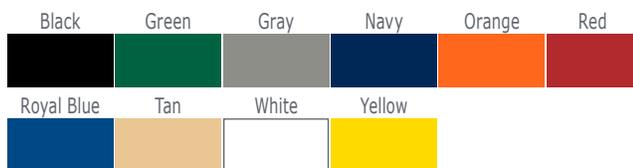

Ballasted & Non-Ballasted Track Pit Covers

Keep your track pits covered to ensure they are used for their intended purpose: practice and track meets. Putterman offers track pit covers in both vinyl and mesh with a weighted or grommeted perimeter. Both options are custom made to fit your track's pit sizes. In addition, we have multiple colors to choose from and can print on both materials to fit your school's needs.

AFCBPCVIN-CSTM

VINYL COLOR CHOICES

AFCBPCMSH-CSTM

MESH COLOR CHOICES

Track Protectors

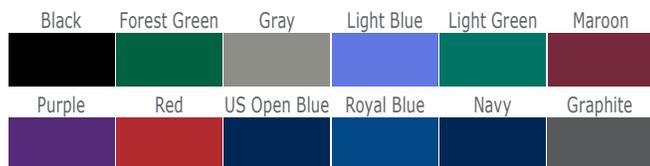

Putterman’s Track Protectors are the ideal solution for protecting your track from the wear and tear associated with foot and cleat traffic, equipment and the overall abuse tracks take in and out of an individual sport’s seasons. We offer two options for our track protectors. Both our track protectors have a chain-weighted, vinyl perimeter to ensure that the protector stays in place. The difference between the two products rests in the protector’s main fabric component, as shown below.

Premium Guardian™ Cut-Across Track Protectors

PGCATP-CSTM

This protector is made by combining two materials- an assimilated nylon monofilament that is 3D in form and has an industrial mesh overlay. Together they allow for a fully permeable protector that is mold and mildew resistant. The mesh top cover comes in an assortment of colors that allows you to show off your team colors. Standard widths are 6’ and 12’ with standard lengths of 30’, 40’ and 50’ long. The sideline protectors are 12’ wide x 75’, 100’, 125’ and 150’ long. Imprinting is available.

Guardian™ Cut-Across Track Protectors

GCATP-CSTM

Made with a 10oz polyester-polypropylene blended fabric that is semi-permeable and mold and mildew resistant. Standard widths are 7’-6” and 15’ with standard lengths of 30’, 40’ and 50’ long. The sideline protectors are 15’ wide x 75’, 100’, 125’ and 150’ long. Imprinting is available with an add-on industrial strength mesh which comes in a multitude of colors. White or yellow edging is standard, but other colors are available.

Skin Infield Tarps

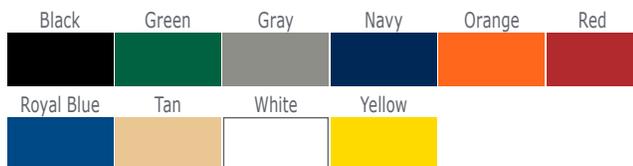

Skin tarps are designed to help with your infield's moisture management, fitting on the skinned area of your infield with no overlapping on the grass, and can remain down for extended periods of time. They're great for winter use as well as event and concert season. Our covers have UV and mildew inhibitors built into the raw material and the seams are heat-welded for increased strength and durability. Manageable sizes are a must. Unlike competitive cookie-cutter products, Putterman offers custom sizing, optional material weights, and a number of finishing options that include grommets, handles and Velcro. Our staff will work with you to get the precise fit that you need for your field.

Skin Infield Tarps

AFGSSG-CSTM

- Heavy-duty 14 or 18oz vinyl options
- Waterproof and mildew resistant
- Reinforced perimeter with #4 brass grommets; every 12"

Winter-Coat™ Ground Blankets

WINTERCOATGROUNDBLANKET

Utilize Winter-Coat™ Ground Blankets for a healthy spring green-up. These growth blankets are made from a spun-bond copolymer textile with a silver interwoven overly that helps spread the heat of the blanket. The perimeter is finished with an industrial strength mesh and #4 grommets that are spaced every 36”.

Netting Accessories

- Snaps [SNAPS]: zinc plated
- Black polypropylene rope [ROPE316BLK]: 3/16" diameter monofilament braid
- Cable [GALVCAB25]: available in multiple sizes and breaking strengths
- Cable clamps [CABLE-CLMP]: available in multiple sizes and torques
- Turnbuckles [TRN-BUCK]: available in multiple sizes and load limits
- Eye bolts [EYEBOLT]: available in multiple sizes and load limits

Custom Padding

Putterman's Custom Padding is designed to protect players and enhance safety on the court and around your facility. Whether it's fence rails, sharp corners, beams, or hidden hazards behind backdrop curtains, this padding helps create a safer playing environment both indoors and outdoors. Each pad is customized to fit your facility.

Our double-sewn padding comes in 2", 3" or 4" high-impact foam, with or without plywood backing, is wrapped in durable long-lasting 14 or 18oz vinyl.

Padding 18

PADS18-CSTM

- 18oz 100% vinyl coated polyester
- Fully wrapped sewn pads
- Logos and graphics available
- Available in Red, Yellow, Orange, Bright Pink, Lime Green, Green, Burgundy, Marine Blue, Royal Blue, Navy, Tan, Brown, Purple, White, Grey, and Black

Padding 14

PADS14-CSTM

- 14oz vinyl coated polyester
- Fully wrapped sewn pads
- Logos and graphics available
- Available in Royal Blue, Red, Gold, Forest Green, Purple, Burgundy, Navy Blue, Grey, White, Black, Kelly Green, Orange, Sky Blue, and Camel

Outdoor Safety Pads

Stadium Wall Pads

PADS-CSTM

Putterman offers a collection of Stadium Wall Padding that covers any wall, fence or rail that your facility may require. The construction of these pads is as unique as your facility.

Our collection of padding options includes, but are not limited to, the following components:

- 3/4" exterior grade plywood standard
- 18oz coated vinyl
- Pads are fully wrapped, helping to keep water and moisture away from the foam and wood
- Cross-link Polyethylene (Closed cell) or Polyurethane (Open cell) available
- On-site installation available

Dugout, Pole and Goal Post Pads

PAD18-CSTM

Protect your players and give your field an enhanced look by adding rail pads and goal post padding by Putterman Athletics. Our padding endures the abuse of the game and the weather. Easy to install and remove.

- Customizable for your required specifications
- Sewn pads available in 1" to 6" thick foam
- Available with grommeted or velcro closures

Indoor Safety Pads

Gymnasium Wall Pads are a vital component of safety and aesthetics in any school or athletic facility. Whether you're looking to protect athletes or enhance the appearance of your gym, Putterman Athletics offers customizable solutions to meet your needs. From wall pads to rail, column, and I-beam padding, we can design a tailored layout that fits your exact space and specifications.

Our staff can help design a system that best suits you and your gym's needs.

Gymnasium Wall Pads

PADS-CSTM

Our collection of padding options includes, but are not limited to, the following components:

- 7/16" OSB (standard)
- 3/4" Exterior Grade Plywood (optional upgrade)
- 18oz coated vinyl with a fire retardant (FR) option
- Polyurethane and Cross-Link foam available
- Cut-outs as needed
- On-site installation available

FOR THE INSTALLATION OF THE PADS, WE OFFER:

- Upper and lower mounting lips. No track required
- Z-Track mounting strips
- Multitude of colors available

Noise-Absorbing Safety Pads

AcoustiPad™ Safety Padding

PAD-AP-2X6 | PAD-AP-4X6 | PAD-AP-CSTM

Bring peace and performance together with the revolutionary AcoustiPad™, a new standard in athletic facility padding.

Engineered to dramatically improve acoustics and aesthetics, our Patent Pending AcoustiPad system features a 2" high-density foam core wrapped in our exclusive, synthetic open-mesh fabric that resists wear and tear while allowing sound to dissipate efficiently.

Designed to perform as great as it looks, AcoustiPad reduces sound echo by over 95%, transforming loud, reverberant spaces into more comfortable, enjoyable environments for play and practice. Perfect for pickleball, tennis, basketball, volleyball, and other indoor or covered sports facilities, it enhances both player experience and audience comfort.

Choose from 15 standard colors to complement your facility's design and branding. Custom sizes and imprinting available.

With its unmatched acoustic performance, resilient construction and professional look, AcoustiPad is the perfect blend of protection, comfort, and innovation — making every game sound better.

Material Tested	Insertion Loss (dBA)			Total Reflected Sound
	Level w/o Barrier	Level w/ Barrier	Net Loss	
AcoustiPad Mesh #1	83	61	22	1%
AcoustiPad Mesh #2	83	56	27	2%
1/2" Thick Glass Panel	91	65	26	83%
18 oz/sy Vinyl Covering	83	38	45	79%

Tested By:

Gym Divider Curtains

Walk Draw Divider

- This simple curtain is designed for ease of use and storage
- Available in cable suspended or track supported varieties
- Curtain is manually deployed and retracted along cable or track
- Storage dimensions: 1" per ft of curtain length

Fold Up Divider

- This accordion style curtain efficiently divides a space by descending from the ceiling
- Curtain folds neatly for storage as the concealed bottom tube rises toward the ceiling
- Overhead storage guarantees a longer life for this curtain
- Curtain is deployed and retracted using a Heavy Duty 3/4 HP Electric Winch
- Storage dimensions: 2'-6" from bottom of structure

Slope Fold Divider

- This lap fold style curtain is similar to the Fold Up Divider, but offers the additional design feature of fitting flush against a pitched ceiling
- Curtain folds neatly for storage as the concealed bottom tube rises at the same pitch as the ceiling above
- Overhead storage guarantees a longer life for this curtain
- Curtain is deployed and retracted using a Heavy Duty Variable Diameter Drum Motor Assembly
- Storage dimensions: 2'-6" from bottom of structure

Perimeter Fold Divider

- This accordion style curtain incorporates universal couplers along the drive shaft that allow curtain fabric to follow the inside radius of a running track
- Overhead storage guarantees a longer life for this curtain
- Curtain is deployed and retracted using a Heavy Duty 3/4 HP Electric Winch
- Storage dimensions: 2'-6" from bottom of structure

Solid Vinyl

- 19oz 100% vinyl coated polyester
- Logos and graphics available

Vinyl Mesh

- 8oz 100% vinyl coated polyester
- Logos and graphics available

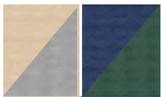

FloorGard™ Premium Covers

GFC 32

GFC32

- 32oz vinyl coated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in Tan/Gray or Navy/Forest Green
- Reversible

GFC 26

GFC26

- 26oz vinyl coated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in Tan/Gray or Navy/Forest Green
- Reversible

GFC 22

GFC22

- 22oz vinyl coated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in Royal Blue, Forest Green or Tan/Gray

GFC 18

GFC18

- 18oz vinyl coated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in Black, Gray, Red, Forest Green, Navy, Royal Blue, or Tan

PUTTERMAN MOBILE STORAGE RACK SYSTEM

GFCRACK-CSTM

- Easily install and retrieve covers
- Features Putterman's exclusive bracket, which increases load capacity and sturdiness
- Options include GFCBRUSH GFC Brush and GFCRCV mobile storage rack cover
- Black powder-coated finish

FloorGard™ Laminated Covers

GFC 32

GFC32-LAM

- 32oz vinyl laminated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in reversible Tan/Gray or Navy/Forest Green
- Reversible

GFC 27

GFC27-LAM

- 27oz vinyl laminated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in reversible Tan/Gray or Navy/Forest Green
- Reversible

GFC 22

GFC22-LAM

- 22oz vinyl laminated polyester
- Custom fabricated to meet your facility's needs
- Mildew, mold, and fire retardant
- Logos and graphics available
- Available in Royal Blue, Forest Green or Tan/Gray

GFC ACCESSORIES

- GFC Tape [GFCT]: rubber-based coated soft PVC
- GFC Tape Dispenser [GFCTD]: tape gun with plastic handle
- GFC Tape Walk-Behind Dispenser [GFCTDWB]: holds widths from 1" to 4"
- Power Winder [GFCPW]: aluminum gear housing and reinforced plastic body and handle

EnviroGard™ Cover System

EnviroGard™ is the next generation of protective gym floor covers. Made from 100% recycled materials, EnviroGard is the first environmentally friendly gym floor cover system on the market. Durable, attractive, and easy to use, EnviroGard truly does redefine the upscale gymnasium space.

EnviroGard™ Rolls

ENVIROGARD

- Extremely light weight and durable
- Deploy approximately 10,000 sf in less than 30min
- Looks like carpet and performs acoustically like carpet
- Highly resistant to tears, slips, and stains
- Contains spills by wicking moisture
- Easy to clean by vacuuming or sweeping

EnviroGard™ Mobile Storage Rack

ENVIROGARD RACK BAR V

- Heavy-gauge steel construction
- Custom lengths available
- Locking casters
- 6000 sf capacity

TileGard™ Cover System

TileGard™ Panels

TILEGARDV

- Lighter than the competition allowing faster and more efficient installations
- Extremely durable, virtually stain proof
- Attractive carpet top surface
- Dramatic sound suppression capabilities
- Contains spills by trapping moisture
- Easy to clean by vacuuming, using hot water extraction, or pressure washing on tough spots
- Panel size: 35" x 70" each

TileGard™ Cart

TILEGARDCARTV

- 200 tiles per cart
- 36" x 72"
- Removable handle

SideGard™ Carpet

SIDEGARDV

- Virtually stain proof
- Highly slip resistant and moisture-proof backing
- Available in 4ft wide by custom length
- Logos and graphics available
